

# OUR COLOURFUL PARKS

Edinburgh is packed with parks and they are FULL of colourful plants, animals and other creatures just waiting to be found. Find a park, pick a challenge and draw or write what you see in the space below. Remember, different parts of the same creature may be a different colour!

# CHALLENGES

Spend an hour finding as many examples of each colour as you can!

Find a plant AND an animal for each colour!

Identify new colourful creatures by uploading photos onto an app like *iNaturalist* or *PlantNet*

**RED**

**ORANGE**

**BROWN**

**YELLOW**

**GREEN**

**BLUE/GREY**

**PURPLE**

**PINK**

**WHITE**

# WHAT COULD YOU SEE?

We looked around Edinburgh to help you identify some of the common creatures you might find!

**FACT FILE:**  
 Green is everywhere! It's the colour of chlorophyll, the chemical plants use to make food from the sun.

**FACT FILE:**  
 Some colour combos are a sign that an animal is toxic to eat. The ladybird's red and black wings tell predators to stay away!

**FACT FILE:**  
 You can help your local insects by planting colourful wildflowers in the green spaces around the city. Bee-utiful!
